

# Metheringham Primary School

## Educational Visits, Enrichment and Experiences Long Term Plan

### Introduction: Vision, Values and Aims

At Metheringham Primary School, we believe that learning should be memorable, meaningful and inspiring. Educational visits, enrichment opportunities and first-hand experiences are a vital part of our curriculum because they bring learning to life, broaden horizons and help children make lasting connections between classroom learning and the wider world.

Our long-term plan for educational visits, enrichment and experiences has been carefully designed to ensure that every child, from Reception to Year 6, benefits from a rich variety of opportunities throughout their time at school. These experiences support academic success, personal development and wellbeing, enabling children to grow as confident, curious and successful learners.

### Our Vision

At Metheringham Primary School, we **Inspire, Believe, Achieve**.

We strive to provide every child with a broad, ambitious and inclusive range of experiences that spark curiosity, nurture confidence and create lifelong memories. Through educational visits and enrichment, we aim to inspire children to explore the world around them, believe in their own potential and achieve their very best.

- **Inspire** – providing exciting opportunities that motivate children, raise aspirations and encourage a love of learning.
- **Believe** – helping pupils develop confidence, resilience and self-belief so they are ready to embrace new challenges.
- **Achieve** – enabling all children to succeed academically, socially and personally through meaningful experiences.

### Our Aims

Through our long-term programme of educational visits, enrichment and experiences, we aim to:

- Enrich the curriculum through memorable first-hand learning experiences.
- Spark curiosity and creativity through visits, visitors and special events.
- Broaden horizons by introducing children to new places, people and possibilities.
- Build confidence, independence and resilience through challenge and adventure.
- Encourage children to develop self-belief and recognise their own strengths.
- Support wellbeing through enjoyable and positive shared experiences.

- Deepen knowledge, understanding and vocabulary through real-life contexts.
- Raise aspirations and encourage children to strive for success.
- Ensure every pupil has the opportunity to flourish and reach their full potential.
- Strengthen links with the local community of Metheringham and the wider world.
- Promote respect for diversity, culture and the environment.
- Encourage children to become caring, active and responsible citizens.

## Our Commitment

We are committed to providing a progressive sequence of experiences across each year group so that children build upon prior learning and develop culturally, socially and academically throughout their primary journey.

Opportunities may include:

- Local area walks and fieldwork
- Visitors and workshops in school
- Theatre, music and arts experiences
- Sporting events and outdoor adventure
- Forest School
- Museum and heritage visits
- Residential experiences
- Community celebrations and projects
- Careers, enterprise and life-skills activities

By the time pupils leave Metheringham Primary School, they will have experienced a rich and varied journey beyond the classroom that has helped them to **Inspire, Believe and Achieve**.

We are committed to ensuring that educational visits and enrichment opportunities are accessible to all pupils. We carefully consider both visit and transport costs when planning experiences and aim to keep parental contributions to a minimum wherever possible. The school seeks to subsidise visits when able, use local opportunities to reduce transport costs and offer support where needed so that no child is disadvantaged or excluded due to financial circumstances.
